## PROFILE

As a Data Analyst with 2 years of experience, I have effectively leveraged my skills in SQL and Tableau to guide business decisions through insightful dashboards and visualizations. I utilized SQL queries to extract, manipulate, and analyze large datasets, ensuring data accuracy and integrity. I designed and developed interactive dashboards using Tableau, enabling stakeholders to visualize key metrics and trends for informed decision-making. Collaborating with cross-functional teams, I translated business requirements into actionable insights and provided data-driven recommendations to support strategic planning and operational improvements. I monitored and analyzed business unit performance, identified areas for improvement, and presented findings to senior management.

## PROFESSIONAL EXPERIENCES

---

### Pupuk Indonesia (Jakarta)

January 2023 – Present

Data Scientist (Visualization)

- Designed and developed comprehensive dashboards for various business units, ensuring they catered to different levels of granularity and specific usage requirements. This involved close collaboration with stakeholders to understand their needs and deliver actionable insights.
- Maintained and revamped a range of existing dashboards for departments such as S&OP, marketing, finance, and production. This included enhancing user experience, optimizing performance, and ensuring data accuracy and relevancy for each department's specific needs.
- Created robust data marts to support dashboard functionalities, utilizing Snowflake for efficient data storage and retrieval.
- Successfully migrated numerous dashboards from Tableau Server to Tableau Cloud, enhancing accessibility and scalability. This migration included thorough testing and performance optimization to ensure a seamless transition and continuous operation.

### RevoU x Kampus Merdeka (Remote)

January 2023 – Present

Data Analytics Mentor (Part-time)

- Optimize the student's learning
- Simulation to teach from the scope of Data Analytics curriculum and mentoring
- Provide grading assignments and feedback to students
- Evaluate and curriculum support

### RevoU (Remote)

April 2022 – December 2022

Section Manager (Full-Stack Data Analytics Program)

- Led and moderated live classes for two batches consisting of 142 students.
- Monitor and maintain the quality of all stakeholders that consist of curriculum, team leads, and instructors to ensure high engagement and optimal learning process while improving the class satisfaction rate from 4.74 in the first batch to 4.92 in the following batch and section manager rate from 4.77 to 4.98 batch to batch
- Prepare regular reports of main performance KPIs and insights in order to provide recommendations and communicate improvement ideas to increase the efficiency and effectiveness of running the program batch

### Pura Barutama (Kudus)

December 2019 – April 2022

Quality Control SPV

- Set, modify, and optimize the parameters for the security paper inspection system which later could improve the average yield from 65% to 80%

- Establish and implement a new reporting system for paper quality using data from the inspection system that will aid the Plant Manager in making data-driven decisions.
- Coordinate with related departments to evaluate the paper quality and problems that occurred in paper rolls using data acquired from the paper inspection system

## RELEVANT PROJECTS

---

### [HYBE LABELS Youtube API Analysis](#)

Objective : Conduct data scraping from HYBE LABELS YouTube channel. Analyze overall and 2022 performance based on video views, likes, and comments coupled with dashboard

Tools : Jupyter Notebook, Tableau, Figma

### [Video Games Sales Analysis \(RevoU Final Project\)](#)

Objective : Proposed actionables strategies for video games distributor company to increase revenue, catch up with changes in gaming industry and sustain the business. Acted as Project Lead and managed to get into top 3 of final project competition

Tools : Python, Tableau, Google Slides

### [AirBnb Singapore Reporting Dashboard \(RevoU Individual Project\)](#)

Objective : Built an interactive dashboard that compiles Singapore's AirBnB's room listings, hosts, reviews, and income projections.

Tools : Tableau, Google Data/Looker Studio

### [E-Commerce Customer Segmentation \(RevoU Individual Project\)](#)

Objective : Create user segmentation for targeted marketing that fits the marketing budget of the company

Tools : Python, Canva

## EDUCATION

---

### **RevoU (Jakarta)**

**January - May 2022**

Full Stack Data Analytics Program, Final Score : 97.33 / 100

- Responsible as Project Lead for end-to-end data analysis group project
- Managed to enter Top 3 in a final group project with video games sales analysis
- Selected as one of the students to win a Tableau license in the Data Visualization module
- Selected as one of the top students to work as Section Manager for the next batch

### **Diponegoro University (Semarang)**

**September 2015 - October 2019**

Bachelor of Science, Cumulative GPA: 3.48/4.00

- Laboratory Assistant at Tropical Disease Laboratory, Central Laboratory for Research and Service (UPT Laboratorium Terpadu) that help the final-year student prepare for their final project

## KEY SKILLS & COMPETENCIES

---

Softskills : Communication, Self-motivation, Analytical thinking, Teamwork, Problem-solving, Growth mindset

Technical skills: Exploratory Data Analysis (EDA), Business understanding, Data Analysis, Data Cleaning, Data Visualization and Communication, Basic Statistics

Toolsets : SQL, Python, Google Sheets, Tableau, Looker Studio, Figma

Languages : Indonesian (Native proficiency), English (Professional proficiency)

## CERTIFICATIONS & TRAINING

---

Professional Academy Digitalent by Kominfo (Data Analyst)

March - April 2023

RevoU Full-Stack Data Analytics

January - May 2022

dibimbing.id UI/UX Design for Beginner

September 2021
